OBJECTIVE

Seeking to leverage my experience in front-end development to build efficient and scalable web applications. Passionate about learning emerging technologies and enhancing user experiences through modern practices.

SKILLS

Technical Skills	HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React JS, C, Python, MySQL, Git
Soft Skills	Communication, Team Work, Problem Solving

EXPERIENCE

Associate Software Engineer Intekspot	Nov 2024 - Present
---	--------------------

- Developed and deployed the company's official website using HTML, CSS, Bootstrap, and JavaScript, ensuring responsiveness and performance optimization.
- Currently working on an Education Management System, a platform for schools to manage student and staff data.
 - Implementing the frontend using React JS, Tailwind CSS, HTML, and CSS.
 - Integrated API calls to fetch and display real-time data from the back-end.
 - Various animation libraries were used to enhance the user interface and experience.
- Collaborated closely with the back-end developer to ensure seamless API integration and data management.
- Worked in a small team environment, handling end-to-end front-end development and contributing ideas for project improvements.

PROJECTS

Netflix Clone - JavaScript, React, Redux, Firebase, Tailwind	Project Link
---	------------------------------

- Developed a Netflix clone with a dynamic slide bar and advanced search filter for movies and genres.
- Implemented user authentication for login/sign-in and a personalized My List feature.
- Embedded YouTube trailers and ensured full responsiveness across all devices.

Add To Cart - HTML, CSS, JavaScript	Project Link
--	------------------------------

- Developed a responsive e-commerce website with cart functionality.
- Implemented features like searching, filtering, and viewing product categories.
- Integrated API calls to fetch real-time product data.

Split Payment - HTML, CSS, JavaScript	Project Link
--	------------------------------

- Created a platform for splitting payments among friends.
- Implemented group creation for better expense management.
- Ensured responsive design for seamless usability.

Automating E-Government Services Using AI - Python

- Designed a framework to automate e-government services using AI technologies.
- Identified challenges in e-governance and proposed AI-based solutions.

EDUCATION

Bachelor of Technology , SRK Institute of Technology Computer Science and Engineering, GPA: 7.1	2019 - 2023
Intermediate , Narayana Junior College MPC, GPA: 9.5	2017 - 2019
SSC , Dilsukhnagar Public School GPA: 9.3	2016 - 2017

CERTIFICATES

MERN Stack	10000 Coders
Programming Essentials in Python	Cisco
Python for Beginners	Sololearn
C for Everyone	Coursera
