WORK EXPERIENCE

Frontend Developer

Webdew Pvt.Ltd.

08/2023 - 10/2023

India

Achievements/Tasks

- I possess a proven track record in developing and maintaining user interfaces for diverse projects. Collaborating closely with UX/UI designers, I adeptly translate mockups into functional web pages. By implementing responsive design techniques. Through meticulous front-end optimization, I've achieved substantial performance gains, notably reducing page load times. Rigorous testing and resulting in polished and reliable user interfaces.

Product Development Specialist

Acies Consulting LLP

04/2022 - 08/2023

Goa, India

Achievements/Tasks

- I revolutionized three cutting-edge platforms with innovative features. For Revolutio, a game-changing 'no-code' digital transformation platform, I built Revolutio-Portals using Wagtail. Additionally, I enhanced Acies Lighthouse, an edX-based learning management system, with groundbreaking functionalities for transformative e-learning.

PROJECTS

Revolutio (04/2022 - 08/2023)

- Implemented Django all auth for seamless social logins, enhancing user experience and accessibility. Played a key role in building Revolutio, a scalable, low-cost, and high-speed automation platform.
- Demonstrated proficiency in leveraging data management tools and techniques to create efficient data models and perform data validation and correction.

Revolutio Portals (02/2023 - 03/2023)

- Leveraged the Wagtail CMS to power the Revolutio Portals website, benefiting from its robust and developer-friendly features.
- Created and managed content using Wagtail's intuitive admin interface.

Acies Light House (10/2023 - 11/2023)

- Played a key role in styling the Acies LightHouse learning platform using SCSS. Ensured that the platform reflected the brand's identity and visual guidelines.
- Enhanced the user interface and visual appeal of the platform and Utilized expertise in SCSS to create a cohesive and engaging learning experience.
