Simpkins School, Agra, Uttar Pradesh, India	Percentage: 90.2/100

SKILLS

- **Languages & Databases:** Java, JavaScript (React JS), HTML & CSS, MySQL
- **Development Tools:** Visual Studio Code, Prompt Engineering, Git & GitHub, Eclipse, AWS Cloud, Netlify, CodePen, MS Office, MATLAB
- **Soft Skills:** Collaborative, Time Management, Leadership, Willingness to Learn

WORK EXPERIENCE

- Front-End Developer Intern** | *Groww With Code* Nov 2023 - Dec 2023
- As an intern at Groww with Code, spearheaded the development of impactful landing pages, showcasing proficiency in responsive design for an enhanced user experience. Leveraged innovative approaches to optimize website responsiveness and elevate overall design aesthetics.
- Web Developer Intern** | *CodSoft* Aug 2023 - Sep 2023
- In this internship, I actively involved in designing interactive front-end interfaces with HTML, CSS, and JavaScript, while also developing dynamic back-end systems utilizing MongoDB and Python. Collaborating on full-stack projects to enhance user experience and performance.
- Web Development Intern** | *PHN Technology* April 2023 - Jun 2023
- Participated in an intensive Web Development program by PHN Technology, gaining 200+ hours of hands-on experience and comprehensive knowledge in cutting-edge technologies, further enhancing proficiency in HTML, CSS, JavaScript, and React.js.

PROJECTS

- Trendz Store** | *Python, Natural Language Processing, Web scraping, HTML, CSS, JavaScript* Oct 2023
- Led a collaborative team in the development of Trendz Store, an e-commerce platform with real-time Google Shopping trends integrated through web scraping. A cutting-edge NLP recommendation system led to a 25% boost in user purchasing, significantly elevating the platform's market impact.
- ExpenseXchange** | *HTML, CSS, JavaScript, NodeJS* Sep 2023
- Created a landing page with advanced expense tracking and currency management, enhancing user experience for effortless financial navigation and informed spending. Resulted in a 20% increase in user engagement.
- My Portfolio** | *React JS, HTML, CSS, JavaScript* Aug 2023
- Implemented a carefully curated blend of HTML, CSS, JavaScript, and React JS to create a dynamic portfolio that showcased my expertise. Resulted in a 30% increase in client inquiries and freelance opportunities.
