LinkedIn: <https://www.linkedin.com/in/aditya-nikam-1177b0288>

Objective

Customer-obsessed and innovation-driven Computer Science graduate with strong foundations in software development, algorithms, and cloud platforms. Passionate about solving complex problems and delivering scalable solutions. Eager to contribute as a Software Development Engineer.

Education

B. Tech in Computer Science
Sant Gajanan Maharaj College of Engineering, Mahagaon
Jun 2020 – May 2024 | 82%

Class 12th
Ajara Mahavidyalaya, Ajara
Feb 2020 | 70.92%

Class 10th
Rosary English High School, Ajara
2018 | 89.40%

Technical Skills

Languages: Java, Python, C++, JavaScript, Node.js

Web: HTML5, CSS, Bootstrap, Flask

Databases: MySQL, MongoDB

Cloud/Tools: Google Cloud Platform (GCP), GitHub, Postman, VS Code, SNOW (ServiceNow)

Concepts: Object-Oriented Design, Algorithms, Data Structures, REST APIs, Agile Development

Certifications

- Full Stack Java Developer – ExcelR
- Python Certification – HackerRank
- SQL Certification – HackerRank
- C Programming – QSpiders

Professional Experience

Tata Communications Transformation Services, Pune L1 Support Engineer

Dec 2024 – Present

- Supported ITSM processes via ServiceNow (SNOW) with a focus on automation and workflow management.
- Monitored and visualized cloud metrics on GCP to ensure application performance and reliability.
- Collaborated cross-functionally to troubleshoot and resolve real-time issues affecting global systems.
- - Implemented role-based authentication, CRUD operations, and RESTful APIs.
- Designed a responsive frontend using HTML, CSS, and JavaScript for smooth user interaction.
- Practiced clean code principles, followed MVC architecture, and ensured robust exception handling.
- Gained end-to-end development experience by independently handling both frontend and backend tasks.

ExcelR Java Full Stack Developer Intern

Apr 2024 – Dec 2024

- Developed full-stack applications using Java, Spring Boot, and MySQL.
- Implemented backend logic, REST APIs, and integrated role-based access control.
- Applied MVC architecture and conducted unit testing for performance and robustness.
- Developed the Employee Management System using Java, Spring Boot, Hibernate, and MySQL.

Authentic Technologies, Gadhinglaj Android Developer Intern

Jun 2023 – Jul 2023

- Built native Android features to enhance application interactivity.
- Gained experience in UI/UX optimization and API integration.

Projects

Mail2Dashboard (Python Automation + Dashboard)

- Automated email data parsing using IMAP, processed with Pandas, and visualized in Flask dashboard.
- Real-time insights displayed via clean tabular UI and dynamic graphs.
- Tech Stack: Python, IMAP, Flask, Pandas, Bootstrap

Employee Management System (Java Full Stack)

- Web app for managing employee records with CRUD, filtering, and authentication.
- REST APIs with Spring Boot; MySQL backend; front end with HTML/CSS/JS.
- Features: Exception handling, MVC pattern, live updates

Soft Skills

- Strong analytical and problem-solving ability
- Effective communicator and team player
- Adaptable to fast-paced environments
- Self-driven and quick to learn new technologies

Interests

Vlogging, Video Editing, Volleyball, Sports
