🔗 Portfolio

CAREER OBJECTIVE:

A motivated and detail-oriented Computer Applications graduate with hands-on experience in full- stack Java development. Proficient in building and deploying robust applications using Spring Boot, Hibernate, and Angular. Eager to apply my problem-solving and analytical skills to contribute to a challenging software development role.

EDUCATION:

BCA: Bachelor's n computer application

2021 – 2024 | Jalgaon, Maharashtra
CGPA 7.28

HSC: Rastriya Vidyalaya chalisgaon.

2020 – 2021
76.33%

SSC: madhyamik vidhyaly khadaki bk

2018 – 2019 | Chalisgaon
65%

Professional Experience

Java development training & intern

09/2024 – 03/2025 | pune

- Gained hands-on experience in backend technologies such as Java, Spring Boot, REST APIs, Hibernate, and MySQL.
- Worked on a real-time project involving user authentication, API development, and database integration.
- Implemented features like login, CRUD operations, and role-based access.
- Collaborated with online mentors and followed industry best practices.

Technical Skills:

Programming languages

Core java, SQL.

Frontend

HTML, CSS, JavaScript, Angular.

Backend

JDBC, Hibernate, Spring Boot.

Tools

Visual studio , Eclipse, MySQL Workbench, Github.

PROJECTS:

Smart Attendance Tracker (Full stack project)

(Internship project)

Tech Stack: Java, Spring Boot, Angular, MySQL, Hibernate

- Developed a full-stack attendance system using Java, Spring Boot, and Angular.
- Created REST APIs for attendance data, login, and role-based access.
- Built a responsive Angular UI for students and teachers.
- Integrated MySQL for storing attendance records securely.
- Added real-time updates, reports, and authentication features.

MockPrep – Backend Application for Mock Interview Preparation

- Developed a backend application for Java full stack students to practice and prepare for technical interviews.
- Implemented features such as user login,scheduling, most-asked questions, and feedback management.
- Created REST APIs for user authentication, add user, add questions, submit answers, and feedback handling.
- Built a structured database schema using Hibernate ORM with MySQL to store users, schedules, questions, and responses.

Certifications:

- “Java Full Stack Development Certification”
