Profile

I'm a fresh Flutter developer, I'm passionate about delivering user-friendly apps with smooth performance. I'm actively looking for internship opportunities or entry-level roles to apply my skills and continue growing in a practical, real-world setting.

Education

Bachelor of Information Technology, Egyptian E-learning University (EELU)

Major in IT _ (Expected Graduation: 2026)

Projects

- **Doctor Hunt App Project (Flutter)**:   (still working on it)

  - Doctor Hunt is an innovative mobile application designed to simplify the process of consulting doctors for patients through a user-friendly interface and advanced features.
  - making it easier to find suitable medical consultations.
  - Built a user-friendly onboarding experience with custom UI design, incorporating engaging illustrations and smooth navigation between onboarding screens.
  - Implemented user authentication and secure sign-up/login functionality.
  - Focused on clean architecture with API integration and state management using BLoC, ensuring a scalable and maintainable codebase.

- **News App Project (Flutter):**   (October 2024)

  - A Flutter-based real-time news app.

  - delivering updates across various categories like Sports and Technology.

  - with a focus on API integration.

- **Toku App Project (Flutter):**   (September 2024)

  - Developed an educational app for learning Japanese.

  - covering topics such as numbers, colors, family members, and common phrases.

  - The app includes an audio feature that plays pronunciations for each term, enhancing the learningexperience.

- **Responsive Auth page Ui (Flutter):**   (September 2024)

  - A Flutter project that focuses on building a clean and functional authentication UI.

-   designed to ensure a user-friendlyexperience with attention to layout and design elements.

-   **Interest Calculator Project (Flutter):** (September 2024)

    -   Created a financial calculator app to compute simple and compound interest rates.
    -   with intuitive user input andreal-time calculation features.

-   **Notes App Project (Flutter):** (September 2024)
    -   Developed a note-taking app using Flutter.
    -   that includes user authentication note creation, editing, and clouddatabase integration using Firebase.
    -   Focused on delivering a seamless and user-friendly experience with an emphasis on high performance.

-   **Basketball Points Counter (Flutter):** (August 2024)
    -   Developed a straightforward app to track basketball scores for two teams.
    -   allowing users to add 1, 2, or 3 points per team and reset scores with a single click.
    -   The app features a clean andsimple UI for real-time scorekeeping.
    -   ensuring an intuitive user experience

-   **Tasbih App Project (Flutter):** (August 2024)
    -   Developed a one-page Tasbih application using Flutter
    -   provide users with an intuitive and simple interface forcounting Tasbih.
    -   Focused on optimizing performance and delivering a minimalistic user experience

Technical Skills

-   **Mobile Development:** - Dart - Flutter - Firebase - SQLite - State Management (Provider, getx) - API Integration.
-   Basic knowledge of responsive design in Flutter.
-   problem-solving.
-   Version Control: Git, GitHub.
-   Project Management: Trello.

Courses

-   Introduction to Mobile App. Development, TIEC - Creativa (October 2024)
-   Mastering Flutter E-commerce: Build a Full-Featured App, Udemy (September 2024)
-   Flutter & Firebase Chat App: Master Flutter and Firebase, Udemy (September 2024)
-   Flutter for Beginners: Learn to Build Mobile Apps with Ease, Udemy (September 2024)
-   Flutter and Dart Certification Prep Complete Guide, Udemy (August 2024)
-   Git and GitHub , Almdrasa (August 2024)

Language Skills

-   **Arabic**: Native

-   **English**: Intermediate in both written and spoken communication
