SUMMARY

Results-driven **Full-Stack Developer** with **7 years** of experience specializing in **React.js, TypeScript, JavaScript, HTML, CSS, Redux, Formik, and Tailwind CSS**. Skilled in building scalable web applications, reusable components, and robust backends using **Golang, MongoDB, Kafka, and Elasticsearch**. Experienced with **GraphQL, Apollo Client**, and implementing CI/CD pipelines using **Docker** and **Kubernetes** for seamless deployments. Proven expertise in leading projects, collaborating with cross-functional teams, and delivering high-quality solutions. Passionate about optimizing **performance, scalability, and user experience** through cutting-edge technologies.

PROFESSIONAL EXPERIENCE

ReactJS - Full Stack Developer

Aug '22 - Present

Persistent Systems

Jaipur, Raj

Project - Vendor Management(August 2022 to Present)

- **Developed** 3+ dynamic web applications using **ReactJS, TypeScript, JavaScript (ES6), HTML, CSS, and Tailwind CSS**, significantly improving page load times and overall user experience
- **Managed application states** with Redux and Redux Thunk, streamlining state handling and **reducing system overhead by 25%**, leading to improved responsiveness
- **Built dynamic forms and UI components** with Formik and Yup, reducing submission time by 30% and improving user satisfaction
- **Engineered scalable backend microservices** using Golang and gRPC, implementing Protobuf to reduce communication latency and enhance service efficiency
- **Improved MongoDB** queries and aggregation pipelines, improving data retrieval speed and reducing server load in high-demand environments
- Implemented **Kafka** for building reliable, real-time data pipelines, improving system throughput and reducing message processing delays
- Integrated **Elasticsearch** to provide robust search functionality, enhancing query accuracy and minimizing search response times
- **Deployed** applications using **Docker, Kubernetes, and AWS**, ensuring production systems remained stable and responsive under heavy traffic loads
- **Mentored** junior developers, resulting in faster onboarding and improved team productivity, leading to enhanced collaboration and quicker delivery times

ReactJS - Full Stack Developer

Jun '21 - Aug '22

Tech Mahindra

Noida, UP

Project - Previsit Data Sharing(June 2021 to August 2022)

- **Engineered** responsive user interfaces with **React.js, TypeScript, JavaScript (ES6), HTML, and Tailwind CSS**, contributing to a significant drop in bounce rates and enhanced user engagement across devices
- **Constructed** modular, reusable front-end components, reducing code duplication and accelerating development cycles for various projects
- **Utilized GraphQL and Apollo Client** for efficient data management, ensuring smooth client-server communication and faster data retrieval
- **Implemented** state management solutions with Redux and Context API, ensuring efficient data flow across complex React applications and improving performance
- **Managed** front-end routing with React Router, contributing to a 10% increase in customer satisfaction based on user feedback
- **Designed** and implemented RESTful APIs using **Node.js** and **Express.js**, establishing a reliable backend for frontend integration
- Streamlined CI/CD processes with **Azure DevOps**, automating deployment workflows and significantly reducing manual intervention during releases

Associate Analyst

Jan '18 - May '21

Alight HR Services India Private Limited(on Wipro's payroll, Joined Alight on Jan 29, 2018, and transitioned to Wipro on Sept 1, 2018)

Noida, UP

Project - 401k retirement management system(January 2018 to May 2021)

- **Formed** dynamic user interfaces using **Liferay**, enhancing user interaction and workflow management, which led to a noticeable improvement in user feedback
- **Streamlined** batch job processes using IBM Mainframe tools, optimizing operational workflows and increasing system efficiency.
- **Collaborated** with onshore and offshore teams to deliver high-quality project solutions, ensuring client requirements were met 10% faster than the stipulated timeframes
- **Created** SQL queries for database updates, resolving defects and improving data accuracy by 15%
- **Modernized** outdated systems, transitioning to new technology stacks, reducing development time by 10% and minimizing bugs

TECHNICAL SKILLS

Languages & Frameworks: React.js, TypeScript, JavaScript (ES6), HTML, CSS, Tailwind CSS, Redux, Formik, Golang, Node.js, Express.js

Databases & Tools: MongoDB, Kafka, Elasticsearch, Apollo Client, GraphQL, Hasura, SQL

Cloud & DevOps: AWS, Docker, Kubernetes

Testing: Jest, React Testing Library

Version Control: Git, GitHub, GitLab

EDUCATION

B. Tech. in Electronics & Communication

Aug '14 - Jul '18

Lovely Professional University

Jalandhar, Punjab
