## Professional Summary

Final-year Computer Science student skilled in full-stack development and DevOps. Proficient in Spring Boot, Flutter, REST APIs, and CI/CD workflows. Passionate about cloud computing, infrastructure automation, and building scalable applications.

## Technical Skills

**Languages:** Java, Python, Kotlin, Dart, SQL, HTML, CSS, JavaScript
**Frameworks/Tools:** Spring Boot, Flutter, Docker, Jenkins, Firebase, GitHub Actions, Terraform, Streamlit, LangChain
**Cloud/DevOps:** AWS (EC2, S3), REST APIs, CI/CD Pipelines, Prometheus
**Database:** MySQL

## Projects

**Smart Wardrobe App**
Flutter app using weather APIs to recommend outfits. Integrated GitHub Actions for CI and implemented smooth animations.

**Gemini AI Chatbot**
Chatbot built with LangChain and Gemini APIs. Deployed securely on Streamlit with token-based access and logging.

**Student Registration System**
CRUD system using Spring Boot and MySQL. REST APIs tested with Postman, containerized using Docker for deployment.

## Education

**Sagar Institute of Research and Technology (SIRT)**, Bhopal
B.Tech in Computer Science                                 CGPA: 7.0                                 2023–2026

**Govt Polytechnic College Khirshadoho (RGPV)**, Chhindwara
Diploma in Computer Science                                 CGPA: 7.7                                 2020–2023

**New Aradhna Convent School**, Parasia
10th Grade                                 82.5%                                 2019

## Certifications

Goldman Sachs SE Simulation – Forage (2024)
Scaler Java Fundamentals – Scaler Academy (May 2025)
Career Skills in Data Analytics – LinkedIn (Jul 2024)
Android Development with Java – Udemy (Apr 2024)

## Achievements

Top 5% Performer – Scaler National Coding League (Jul 2024)
Global Coding Challenge – TCS CodeVita Season 12 (Apr 2025)

## Other

**Languages Known:** English, Hindi
**Interests:** Tech blogging, YouTube content creation, self-growth books, badminton
