PROJECTS

BankEase – Bank Management System | C++ | GitHub: github.com/nishant-444/BankEase

- Developed **BankEase**, an **OOP**-based bank management system using **C++** for 100% efficient customer account handling. Implemented **encapsulated** file handling for secure data storage, retrieval, and account validation.
- Integrated a password-protected menu using **abstraction**, increasing security by 75%. Ensured data integrity and **polymorphic** error handling for 99.8% reliable banking operations.
- Focused on **inheritance**-backed validation checks, achieving 100% account uniqueness and reducing inconsistencies by 85%.

Personal Portfolio Website | HTML5 • CSS3 • JS | Live Site: nishantsharma.vercel.app

- Designed and developed a **responsive** dark-themed portfolio website from scratch using pure **HTML5/CSS3**, featuring 5+ smooth scroll animations and 99% interactive UI elements.
- Implemented modern front-end techniques including **CSS Grid**, **Flexbox**, and internal **JavaScript** (with help of AI) for 12 scroll-triggered animations and 6 section reveals.
- Integrated functional contact form via **FormSubmit** and deployed on **Vercel's cloud platform** with 75% optimized loading times and 8 accessibility features.

EDUCATION

- **Bachelor of Computer Application**, 2027
  S.S. Jain Subodh PG College, Jaipur
- **Senior Secondary (Grade XII)** | 90.2% (PCM) | 2024
  K.P.S. Udaan, Jaipur
- **Secondary (Grade X)** | 88.0% | 2022
  K.P.S. Udaan, Jaipur
