SUMMARY

To pursue my B.Tech in Artificial Intelligence and Data Science at KPR Institute of Engineering and Technology with a strong focus on skill development. To apply my learning in real-world projects and build a career in AI, data analytics, and intelligent systems.

SKILLS

Frontend

HTML, CSS, JavaScript, Frameworks & Tools- React.js, Tailwind CSS, Flutter, Visual Studio

Backend

Node.js, Express.js, Python

Programming language

Java, Python, C, Matlab, R, Sql

Design & Productivity

Figma, Microsoft Office, Adobe Suite

EDUCATION

- Btech in Artificial Intelligence and Data Science - **8.0/10** 2024 - 2028
KPR Institute of Engineering and Technology - CBE
- HigherSecondaryCertificate (HSC) - **89.1%** 2024
Senthil Metric Higher Secondary School - DPI
- SecondarySchoolLeavingCertificate (SSLC) - **78.2%** 2022
Government Higher Secondary School - Eriyur

PROJECTS

Online Voting System with Heap Leaderboard

Implemented a secure Online Voting System with Max Heap for real-time leaderboard management.

Placement Data Analysis & Prediction

Developed a placement prediction system using data analysis and machine learning models to identify key factors influencing placements.

Face Detection Door Lock Agent

Engineered a face recognition door lock system for real-time identity verification and access control.

Company Performance Dashboard

Built a company performance dashboard to monitor sales and operational metrics.

CERTIFICATES

- Practical Cyber Security for Cybe Security Practitioners - [NPTEL Certification]
- BARNSTROMZ - 2K25

EXTRAS

- Participated in [Smart India Hackathon]
- Voulanteered at [KPR Mini Marathon]
