Anishkushwahaq28@gmail.com

ANISH KUSHWAHA

Profile Summary:

Passionate Computer Science student and aspiring Cybersecurity, Java and Python programming. Specialist with strong skills in penetration testing, programming, and network security. Seeking opportunities to apply my knowledge in real-world projects, contribute to secure system development, and grow as an ethical hacker.

SKILLS

- [*] Programming & Scripting: Python, Java, Bash, JavaScript, HTML, CSS.
- [*] <u>Cybersecurity & PenTesting</u>: Kali Linux, Metasploit, Nmap (custom clone project), Burp Suite (proxy), SQLi testing, Vulnerability Scanning
- [*] Networking: TCP/IP, Socket Programming, Banner Grabbing, Subnet Scanning
- [*] Databases: MySQL, SQLite
- [*] Version Control & Collaboration: Git, GitHub, LeetCode, HackerRank, etc...,
- [*] Operating Systems: Linux (Kali, Ubuntu), Windows, Android (Termux & Kali NetHunter)

EXPERIENCE

Internshala, Noida - Student Intern

October 2025 - December 2025

- Collaborated with senior engineers and management, gaining hands-on experience in software development and project coordination.
- Designed and developed multiple innovative programming projects using Java, Python, CSS, and JavaScript.
- Improved problem-solving and debugging skills through real-world application development and testing.
- Contributed to team discussions, offering ideas that enhanced project efficiency and code quality.

- Worked on full-stack development projects, integrating Python, Java, HTML, CSS, and JavaScript to build scalable and responsive applications.
- Assisted in implementing secure coding practices and vulnerability testing to enhance application security and protect user data.
- Collaborated with the cybersecurity team to identify potential threats and apply penetration testing techniques for improved system defense.
- Contributed to debugging, code optimization, and performance enhancement to ensure high-quality software delivery.

AWARDS

- [*] HackerRank Certification Software Engineer Intern (<u>View Certificates</u>)
- [*]Solved 400+ problems on LeetCode & participated in contests.
- [*] I've contributed many repositories on GitHub.
- [*]Ranked in top 8% in HackerRank challenges

Purpose:

[*] Cybersecurity / PenTesting Focus:

To pursue a career in cybersecurity where I can apply my penetration testing and programming skills to identify vulnerabilities, secure systems, and contribute to building safer technology.

[*] Student + Learner Focus:

To gain hands-on experience in cybersecurity and software development, enhance my problem-solving skills, and grow as a security researcher while contributing to organizational goals

[*] <u>General Tech Role:</u>

To leverage my knowledge in programming, networking, and cybersecurity to contribute to real-world projects while continuously learning and advancing my technical expertise.
