- Led knowledge transfer sessions for two junior team members to enhance their skills and understanding of project.

## ACHIEVEMENTS

- 5 \* rating in Problem Solving on Hacker rank platform in 2020.
- Received Shared Success Catalyst Award in the Offshore team.
- Received Star Employee Award in June & July 2022.

## CAREER OBJECTIVE

An incessant learner and a keen observer, Skilled in Full Stack Web Development who is always ready to learn something new and apply my skills in real life Scenarios. Known for excelling at time management, team building, conflict resolution and leadership.

## PROFESSIONAL SUMMARY

- Working as Full Stack Developer (**Angular + Java**)
- Have done work in **Spring and Activiti** framework.
- Have sound knowledge in **MySQL, DBMS, and Data Structure**.
- Experience in **Core Java, Collection Framework, exception handling, logging frameworks, Web Service: SOAP**
- Experience in Code review tools like **PMD, SonarQube, Checkstyle**
- Experience in writing unit testing using **JUnit, Mock, PowerMockito**
- Experience in **Microservices Architecture**
- Experience in **Spring and ORM** tools like **Hibernate, JPA**
- Moderate experience on **Unix, shell scripting**
- Extensive **REST API** development experience using **Java**.
- Experience in developing **CI/CD pipelines**.

## WORK EXPERIENCE

### Accenture Solutions Pvt. Ltd.

Full Stack Engineering Analyst |Pune | Sept 2021 – current

#### Project Undertaken –

##### PPS Accelerated Transformation –

- Project Overview - Motive of this project is to provide cable products, high speed internet & video services.
- Technology Used – Java, Spring Boot, Angular, XML, JSON & J2EE

Role - Worked as a **Java Developer**.

#### Responsibilities -

- Developed **RESTful APIs using Java and Spring framework** to support telecom project, resulting in 20% reduction in server costs.
- Identified risks and properly mitigated them.
- Worked with product managers to identify areas of opportunity for process improvement and automation.
- Added new functionalities to the existing applications.
- Responsible for upgrading XSP boot of 9 applications.
- Responsible for reprocessing failed transactions.
- Migrated 9 applications from one environment to another environment.
- Maintained code quality & prepared Junit test cases.
- Fixed performance issues in the application using the concept of chunk & parallel stream.
- Spearheaded the **integration of third-party APIs** to optimize application performance and introduce new features.
- **Supported application throughout the project from offshore.**
- Led and participated in the development of **multiple automation solutions** to automate repetitive tasks, reducing manual workload by 40%.
