Objective

I studied computer science at university. During my university life, I was introduced to various programming languages and technologies. My best motivation is to learn new things and put them into practice.

Experience

IT Trainee ,Corlu Ticaret Sanayi Odası,Corlu-Turkey

2021-2022

I worked as an IT intern in the IT department for 2 months. I learned the operation of the IT unit.

Cyber Security Analyst,Destel Bilişim A.Ş.,İstanbul-Turkey

2022-2023

Here, I am a cyber security analyst according to the job description given by the company. As a cyber security analyst, we serve Istanbul Grand Airport.

Career Gap

2023-()

As my military service was approaching, I temporarily worked outside my profession. After completing my service in March 2024, I took time to recover from a short-term health issue. Between April and September 2024, I actively searched for a job in my field. Due to limited opportunities, I returned to a non-professional role in September 2024. Currently, I am focused on research and project development with the goal of launching my own startup.

Education

Namik Kemal University,Computer Science

2018-2022

Bachelor Degree

Skills & abilities

Java | Python | C# | SQL | Docker | Kubernetes | Data Visualization | Data Science | Machine Learning | Network(Medium) | Linux(Medium) | SOC Analyst L1

Projects
