

HASNAIN TARIQ

SOFTWARE ENGINEER | Sr. FRONTEND ENGINEER

hxn619@gmail.com | +92 (307) 2460 - 234

Full-Stack Web Developer with 4+ years of experience delivering SaaS and eCommerce solutions. Skilled in React, Node.js, Express, WordPress, Next.js, Shopify, and more. Adept at overseeing projects, optimizing processes, and collaborating cross-functionally. Recognized for strong problem-solving, communication, and leadership. Seeking a management-focused role to guide high-performing teams.

PROFESSIONAL EXPERIENCE

Sr. Full Stack Developer | Freelance

May 2020 - Present

Upwork

- Developed a Proprietary Cloud Portal to streamline real-time data tracking, analytics, and task management across manufacturing operations.
- Launched Advanced E-Commerce Solutions by creating multiple high-performing Shopify stores, leveraging custom Liquid scripts, PHP, and JavaScript to elevate user experience and conversions.
- Established a Future-Proof Mobile Framework, ensuring scalability, responsiveness, and seamless integration for forthcoming mobile applications.
- Implemented Modern Tech Stacks (React, Node.js, MongoDB) alongside CI/CD pipelines and Git-based workflows for optimized deployments and minimal downtime.
- Spearheaded Cross-Functional Collaboration, aligning objectives between operations, finance, and marketing teams to deliver user-centric platforms and actionable insights.

Sr. Frontend Engineer | Remote

Feb 2022 - Dec 2024

RabbitCare - Thailand

- Led the development of innovative front-end solutions for Rabbitcare, ensuring seamless integration with back-end systems and a user-friendly experience.
- Translated business needs into technical specifications, delivering high-quality features that supported Rabbitcare's objectives.
- Collaborated closely with cross-functional teams, including designers and product managers, to ensure cohesive and efficient project delivery.
- Managed the complete development lifecycle, from conceptualization and coding to deployment and maintenance.
- Implemented robust security measures to protect user data and ensure compliance with industry standards.

Full Stack Developer | Remote

Feb 2020 - Jul 2021

Zkyte Technologies, Nigeria

- Developed a Custom CRM System to streamline trucking operations, enabling real-time load management, data tracking, and workflow automation.
- Led Full Software Development Lifecycle, from wireframe creation and code review to functionality testing and debugging.
- Collaborated with Designers on UI/UX elements, delivering responsive layouts and intuitive navigation across web and mobile devices.
- Coordinated Cross-Functional Teams, ensuring open communication between front-end, back-end, and design for timely project delivery.
- Maintained Up-to-Date Documentation, employing modern industry trends and technology developments to optimize system performance.
- Prioritized and Scheduled Projects, setting realistic timelines and delegating tasks effectively to meet business objectives.

EDUCATION

B.S. in Computer Science

Jan 2021 - Feb 2024

FUUAST University, Pakistan

- Major in Web Applications.
- FYP on "IoT-Based Long-Range Module device with Arduino to detect suspiciousness from far away".

HSC in Pre-Engineering

Aug 2018 - May 2020

ADAMJEE, Pakistan

- Completed a rigorous HSC (Computer Science) curriculum, strengthening analytical skills and understanding of core mathematics, statistics, and computer fundamentals.
- Developed a solid problem-solving mindset, applying engineering principles that later guided advanced software development projects.

KEY ACHIEVEMENTS

- **MyVybes - Event Management System**
 - Built a comprehensive event management and analytics platform using React, Node.js, and Cloud for production companies, enabling ticket & event tracking and operational oversight.
- **Easytap - A digital business card**
 - Developed EasyTap, a digital business card platform using React, Redux, and Firebase, enabling seamless networking and efficient contact management.
- **UpUpManga - A comic book store**
 - Created UpUpManga, a full-featured platform with automated manga management and tracking, integrating real-time analytics and reporting, resulting in a 40% increase in user engagement and a 25% boost in content consumption.
- **DonotBlink - Educational platform**
 - Created DoNotBlink, an educational platform focused on eye health, delivering interactive content and personalized learning, resulting in a 30% increase in user knowledge retention and a 25% boost in engagement.

TECHNICAL SKILLS

- Front-End & Frameworks: Javascript, Typescript, ReactJS, NextJS, Gatsby.js
- Back-End & Scripting: NodeJS, ExpressJS, Liquid, NextJS
- DevOps & Version Control: Docker, GitHub
- Testing & QA: Postman, Jest, Mocha, React Testing Library
- Project Management & Collaboration: Jira, Trello, Asana, ClickUp, Slack, Microsoft
- Hosting & Deployment: AWS, GCP, Railway, Vercel, GoDaddy, Hostinger, HostGater and etc.

CERTIFICATIONS

- Software Engineer - **HackerRank**
 - Achieved Software Engineer certification from HackerRank, validating my expertise in software development and problem-solving skills.
- Javascript Engineer - **HackerRank**
 - Demonstrated ability to solve complex coding challenges under time pressure.
- Agile & Scrum Fundamentals (Self-Attested)
 - Gained knowledge of Agile methodologies and Scrum workflows to enhance team collaboration and project delivery.
